The Thesis Of:

CAN # (810):

Entitled:

is submitted for examination by the masters advisory committee.

Major Professor: Date:

Part II: The graduate coordinator appoints the reading committee. It is not necessary to notify the Graduate School at the time this committee is appointed. The major professor cannot serve on this committee. The committee listed below is appointed to read the thesis described in Part I.

Did this student use human subjects in his/her research? Yes No

If so, provide the project number and date approved by IRB

Please **type and sign** names below once the question regarding human subjects has been answered.

Chair Date:

Member Date:

Graduate Coordinator Date:

Part III: To be signed by the members of the Reading Committee. The Reading Committee reports the following action on the above thesis:

Approved: Date:

Approved with Suggested Changes: Date:

Disapproved: Date:

Chair

Member

If the thesis is approved, the chair of the reading committee will send all four copies of this form and the copies of the thesis to the major professor. The major professor, as chair, will arrange the date, time, and place for the final oral examination, and administer the final oral examination with the assistance of the reading committee.

Part IV Final Approval: To be signed by the Professor. The Major Professor and the Reading Committee held the final oral examination on:

Date: and reports the following action:

Passed:

Failed:

Major Professor: Date:

Please refer to the Graduate School's website for an expanded discussion of these topics:
<http://www.grad.uga.edu/academics/thesis.html>

Copyright:

Every thesis and dissertation is required to have a copyright page and an abstract that includes key words. These key words will be used in the cataloging and Web search operations.

Students who utilize the manuscript style of a thesis or dissertation **must** procure copyright release from the publisher of the book or journal for it to be included within their document. The Graduate School cannot put the document on the Web without prior copyright release of these or other materials contained within the document.

The Office of Vice President of Research provides information concerning the copyright issue. To view this information, students should refer to the Graduate School Website.

Release Options:

The University of Georgia's land-grant mission includes sharing scholarly work with other scholars, students, and the public. Pursuant to this, theses and dissertations are made available publicly upon degree conferral. Under unusual circumstances, students may request a delayed public access to theses or dissertations for a short period of time.

With explanation, a student may request:

- 1) An embargo for theses and dissertations based on research that may be patentable or include confidential, time-sensitive material for up to one year; or,
- 2) Limited digital distribution for up to two years to University of Georgia users of a thesis or dissertation that contains material, which may be published with a publisher with a restrictive pre-publication policy.

In the first case, with explanation, a student may request a delay in distributing the dissertation for up to one year from the date of degree conferral in two situations:

- The student, or his or her collaborators, is applying for a patent on research contained in the dissertation, and does not wish to make the contents public until the patent application has been filed, or
- The dissertation includes confidential information that is time-sensitive.

The second case applies to a student who has submitted the thesis or dissertation in electronic form and is planning to publish material from it in a journal or with a publisher with a restrictive pre-publication policy. With explanation, a student may request to limit access to the thesis or dissertation to University of Georgia users for no longer than two years from the date of degree conferral. This restriction on public access means the material will not be considered "pre-published."

A petition for an extension of the embargo will require a letter from the major professor (or Department Head in the absence of the major professor) supporting the student's request. Such a petition will be reviewed by the Administrative Committee of the Graduate School.

Dissertation Abstracts: (Doctoral Students Only)

The traditional dissemination of doctoral dissertation research has been through the publication of the abstract in Bell and Howell's (UMI) *Dissertation Abstracts* and the submission of the entire dissertation to University Microfilms for microfilming and distribution. The electronic submission and availability of the dissertation via the Web now makes the dissertation easier to access. The student should discuss the option of submitting the dissertation or the abstract to *Dissertation Abstracts* with their major professor. Please refer to the Bell and Howell website: <http://www.proquest.com/hp/Support/DServices/prepare/packets.htm> for additional information, agreement forms, and fee requirements.

Submit to Graduate School with your ETD Defense Form
Make sure all signatures are provided
